Item number	TG4101
EAN/GTIN	0852674736057
Category	Tools and Accessories

Handy stainless steel groove sharpener. Cleans and sharpens the grooves of wedges and irons. Blue, red, silver, gold and black.

Description

Groove Sharpener – groove tool for wedges and irons

Clean, sharp grooves help the ball take spin, especially on wedge shots. Dirt and wear reduce that effect. The groove sharpener cleans the grooves and restores their edges. It is made of stainless steel and comes in five colours.

Specifications

Material	stainless steel
Colours	blue, red, silver, gold, black

FAQ

Which grooves does it fit?

Common grooves on wedges and irons. For separate U and V blades choose the U & V Blade version.

Is it legal under the rules?

Clubs must still meet the groove specifications of the Rules of Golf after sharpening. Work carefully and only restore the original shape.

How often should I use it?

Clean regularly; sharpen only when the edges are clearly worn.
