Dynacraft Driving Iron (RH) - Clubhead

Item number	IH435drive
Brand	Dynacraft
Manufacturer part no.	IH435drive
Category	Iron

Dynacraft Driving Iron (RH) - Schlägerkopf – hochwertiges Golfzubehör von Tesi Golf.

Specifications

Material	17-4 Stainless Steel
Hand	for right handed
Bias	Neutral
Club Type	Wedge
for Handicap	Middle, Low

Description

The Dynacraft Driving Iron features a thin, special vacuum heat treated, high-strength forged 17-4 stainless steel face with variable thickness to push high COR to the maximum limits. The hollow-bodied construction positions weight low and rearward for advanced perimeter weighting and a more piercing driving trajectory than a comparable lofted fairway wood. It is designed primarily as a control club off of the tee, but can be an option for approach shots from the fairway from preferred lies.
Please note: without configuration (like added shaft grips etc.) this is only the clubhead!

Modell-Nr.	Hand	Club	Loft	Lie	Gewicht	Offset	Bounce	Std. Clublength	Hosel ID
