7.5 g Weight Plug for Graphite Wood and Iron Shafts (pack of 10)

Item number	BW05W
Brand	Hireko
Manufacturer part no.	BW05W
Category	Weights / Screws

7.5 g weight plug for the tip of graphite wood and iron shafts, 10 pieces: adds head weight and therefore swing weight.

Description

7.5 g Weight Plug for Graphite Wood and Iron Shafts (pack of 10)

The weight plug is inserted into the tip of the graphite shaft and fixed with epoxy. This adds weight to the club head, for example to restore swing weight after shortening the club.

We are also happy to fit it for you in our workshop in Erfurt, Germany.

- Weight: 7.5 g
- For graphite wood and iron shafts
- Fix with epoxy
- Contents: 10 pieces
