Volume	110 cc
Hosel-Diameter	0.370 in
Std. Clublength	39.5 in, 40 in, 39 in

Description

The Acer SR1 hybrids feature cup-face construction or where part of the faceplate wraps around and becomes incorporated into the sole, crown, and skirt area of the head. This pushes the weld back away from the actual face so the areas around the perimeter could be made thinner creating more face deflection for higher ball speeds to areas other than the center of the face. Even when you miss-hit the ball, the SR1 with cup-face technology provides you that extra spring-like effect for longer shots. These low-profile heads have weight concentrated on the sole to promote a higher launch with greater

accuracy.
