## Description

### Acer xv professional golf club iron set 5-pw with steel shaft by Apollo

Discover the Acer xv Professional Golf Club Iron Set 5-pw - the perfect combination of outstanding quality and unbeatable value for money. These golf clubs are manufactured in Erfurt, Germany, with the highest precision and craftsmanship and meet the highest demands of discerning golfers.

Quality from Germany:
Our golf clubs are produced directly in Germany and therefore offer unparalleled quality of workmanship. Each iron is carefully crafted from high-quality components to ensure maximum durability and performance.

High quality components:
The Acer xv Professional golf club set features premium materials known for their reliability and excellent playability. These irons offer precise control and impressive distance to take your game to the next level.

Outstanding value for money:
Despite the premium quality, we offer our golf clubs at a fabulously affordable price. This makes the Acer xv Professional iron set the ideal choice for golfers looking for high quality clubs at affordable prices.

Features of the Acer xv Professional Golf Club Iron Set 5-pw:

- Includes the 5 iron through pitching wedge (5-pw)
- Precise manufacturing for optimal playability
- High quality workmanship from Germany
- Equipped with durable, high-quality components
- Outstanding price-performance ratio

Improve your golf game with the Acer xv Professional Golf Club Iron Set 5-pw. Order now and experience the perfect blend of German craftsmanship and first-class performance at an unbeatable price!

The Acer xv Pro features the same state-of-the-art design as the standard xv iron, but with a more compact design and lower offset favored by better players. The xv Pro model also has a slightly narrower sole and a thinner topline.

Please note that this requires an additional assembly time of 3-6 working days before shipping.

BRinG Confidence in your PLAY
The Acer xv irons are available in 3 models: The xv standard version has a generous offset which helps the player to straighten the clubface at impact. The ht has an almost 30% wider sole and offers more forgiveness. The xv Pro has a more compact design and lower offset, which is preferred by better players.

| Club | Loft | Lie | Offset | Standard Length* | Available |
|---|---|---|---|---|---|
| #4 Iron | 23º | 60.5º | 3.0 mm | 38.5" | RH |
