Graman G60 Graphite Liquid Silver - Wood A

Item number	GRAM-G60-WA
Brand	Graman
Manufacturer part no.	GR-G60-A-WB
Category	Driver & Fairway

Graman G60 Graphit Liquid Silber - Holz A – hochwertiges Golfzubehör von Tesi Golf.

Specifications

Ball Flight	Mid-High
Torque	3.3 d
Material	Graphite
Weight	58 g
Shaft Type	Wood
Flex	A
Tip Diameter	0.335 in
Raw Length	47 in
Parallel Tip	4 in

Description

New and improved series of shafts derived from the "Ultimate G Series" or the "Limey" shafts. By precisely matching swing balance and flex characteristics for each club, the G series shafts are designed for serious golfers looking for maximum stability and consistency. Designed for discerning golfers who want to achieve maximum club head speed for greater distance, accuracy and control, each shaft is manufactured using state of the art technology combined with the finest raw material and the highest strain graphite available in the world. Constructed with ultra-high modules micro plies, all of these shafts come with certified CPM numbers on the butt for custom fitting to a new level of precision. These G series shafts are manufactured with extremely precise symmetry, and then additional innovative steps

are taken to find the Optimum Flex Line (TM) for this series of shafts allowing for logo alignment to produce a perfectly matched set. > CPM/Optimum Flex Line (TM)-certified sticker with 1 CPM or less tolerance > Logo aligned to match with shaft's Optimum Flex Line (TM) > Multiple ultra-high modulus high strain micro plies are combined for additional consistency, responsiveness and feel > Ultra low spin rate > Additional length for total customization.
