## Description

The M Series is our new series of shafts designed from our most popular models of the past 2 decades. Intended for low handicap amateurs and recreational golfer, these mainstream designed shafts give optimum performance in distance, accuracy and feel. The M series offers the most forgiving shafts, allowing favorable execution without hitting on the sweet-spot every time. > Guaranteed to be ± 1.5 CPMs® within each shaft > High Modulus and T-700 High Strain graphite gives this shaft its superior distance, feel and accuracy > Uniform wall thickness allows pinpoint accuracy shot after shot > Extremely high impact strength and light weight for higher swing speeds > A precision shaft with a powerful kick that loads perfectly in all directions > Additional length for total customization.
