Specifications

Weight	59 g
Core Size	0.600 in
Grip Shape	Round

Description

RUBBER. LIGHTENED.

The new JMX Zen Lite is the first JumboMax grip with a rubber surface preferred by professionals and available in each of our seven sizes.

JMX Zen Lite offers our firmest feel and most textured grip surface. It's 10-15% lighter than thin grips to maximise performance while preserving racquet head.

THE BEST GRIP EVER?

We think so. We've taken everything golfers love about JumboMax grips and added a unique rubber surface that gives golfers who prefer rubber grips a firmer feel and improved traction.

WET. DON'T SWEAT.

JMX Zen Lite is our best grip for wet or humid conditions. Its rubber exterior channels water away from the surface to provide maximum traction. When wet, simply wipe these grips with a dry towel and you'll have full gripping power again.

WAR BRYSON SAYS

"ZEN LITE is designed for golfers who prefer the feel of a rubberised grip surface. It has the texture of a rubber grip on the outside, but offers die additional performance of JumboMax on the inside. It also weighs about the same as a standard rubber grip. If you haven't played JumboMax yet, you're running out of reasons not to switch!"
