Why Junior Golf Grips Matter

Children need properly sized grip diameters to:

• Hold the club correctly
• Develop clean and repeatable swing mechanics
• Avoid tension and over-gripping
• Improve feel and ball control

Grips that are too large or too firm can negatively impact technical development. The **Karma Junior Velvet grips** promote a natural hand position and support a stable swing foundation.

Ideal For

• Parents with golf-loving kids
• Golf coaches & junior academies
• Golf clubs with youth teams
• Clubfitters & repair workshops

With 13 grips included, this set is perfect for a complete junior golf set, including spare replacements.

Expert Tip

Especially for junior players, grips should be checked regularly. Worn grips reduce control, comfort, and safety in the swing. Replacing them in time ensures consistent development and more enjoyment on the course.
