Why Junior Grips Are Essential

Children need properly sized grip diameters to:

• Hold the club correctly
• Develop a clean swing technique
• Avoid tension and over-gripping
• Improve feel and ball control

Grips that are too thick or too firm can negatively affect swing development. The **Karma Junior Black Velvet grips** are ergonomically designed to promote a natural hand position.

• Parents with golf-loving kids
• Golf coaches & junior academies
• Golf clubs with youth teams
• Clubfitters & workshop professionals
