Loft/Lie Bending Machine

Item number	TL202
EAN/GTIN	5027084365912
Manufacturer part no.	150310
Category	Tools and Accessories

Loft und Lie Biegemaschine – hochwertiges Golfzubehör von Tesi Golf.

Description

Basic Loft/Lie Bending Machine

For clubmakers who only perform the task a few times a year or those who are just getting started, the Loft/Lie Bending Machine is the economical way to bend irons for loft & lie angle adjustments. The unit is simple to operate and provides a great advantage over other entry-level machines ? measuring gauges for both loft and lie angles are provided on the unit, which means you don't have to remove the club to see if the desired adjustment has been met. The machine mounts easily to a workbench or can fit our heavy-duty Universal Bending Stand. Bending bar sold separately.
