Description

Mitsubishi TENSEI 1K Pro Red – graphite shaft for drivers and fairway woods

A high-launch Pro profile with a firm handle, softer tip and sophisticated carbon construction. Manufacturer flight profile: **Launch high, Spin mid**.

Construction and technologies

- **1K carbon in the handle:** The tightly woven 1K carbon helps create a defined feel and strength in the upper shaft.
- **Xlink Tech Resin System:** Mitsubishi’s resin process supports a carbon-rich construction, balancing strength and feedback.

- **Full-length MR70 carbon:** High-strength aerospace-grade MR70 carbon is applied along the shaft.
- **Boron-reinforced tip:** Boron fibre in the tip helps tune stability and torque.
- **Softer tip:** Combined with a firm handle and low kick point, the softer tip supports a higher flight.

80	TX	83 g	2.9°

Who is this shaft for?

The nominal weight class is not the actual shaft weight. Figures are manufacturer specifications for the raw shaft; finished builds may differ. Ball flight and feel depend on the full club build and swing. Tesi Golf recommends an individual fitting.
