Description

Power Play Juggernaut Iron - customfit

The Power Play Juggernaut are our hottest and longest irons to date. These hollow bodied irons possess an unsupported, super thin specialty face insert, which is devised to flex the face like a titanium driver to maximize ball speed and distance. The face is approximately 25% thinner than a typical cast iron to not only boost the COR near the legal limit, but also save valuable weight that can be used elsewhere to increase trajectory and maximize forgiveness

The body is made of 431 stainless steel and the face is 17-4 stainless steel that goes through a special vacuum heat treatment process.
