Black stepped ferrule for irons whose hosel has a step inside. Fits taper tip and parallel tip iron shafts, 1/2 or 3/4 inch high.

Specifications

Hosel-Diameter	0.335 in
Ferrule Type	Iron

Description

Taper tip black ferrule for irons with step (1/2 or 3/4 in)

Many irons, for example some models from Mizuno, TaylorMade or Callaway, have a step in the hosel. This ferrule has a matching collar at the bottom that sits into the hosel for a clean transition.

It fits taper tip iron shafts and can also be used on parallel tip shafts.

Specifications

Height	1/2 in or 3/4 in
Colour	black
Fits	irons with stepped hosel, taper and parallel tip shafts

Note: Unless expressly described as original, this item is not an original part of the club manufacturer. Brand names are the property of their respective owners and are used here only for identification.

FAQ

How do I recognise a stepped hosel?

Looking into the hosel you see a step at the top that is wider than the bore below. The original ferrule then has a narrow collar at the bottom.

Which height should I choose?

Ideally the same height as the old ferrule so the set looks uniform.

Does the ferrule need finishing?

After gluing it is turned flush with the hosel and polished.
