Tour Lock Opti-Vibe Midweight – hochwertiges Golfzubehör von Tesi Golf.

Description

Fine-tune a club to enhance feel and optimize performance. The concept is similar to the Tour Lock Pro by shifting the weight closer to the player?s hands. However, the Tour Lock Opti-Vibe weights are designed to be inserted between 4-10? from the end of the grip to reduce or increase head feel and optimize overall weight, balance and club?s stability throughout the swing for any golf club.

Some Weights may have longer delivery times..we will inform you!
