True Ace Chipper - Custom Assembled

Item number	XZC06
Brand	Tour Gear
Manufacturer part no.	XZC06
Category	Chipper / Flipper

Versand aus Deutschland

Specifications

Material	Zinc
Club Type	Chipper

Description

The True Ace Chipper features a cavity back and toe/heel weighting with an elongated face for optimal accuracy. Four-way chamber sole allows the club to glide through the grass to ensure solid contact with the ball. Uses a standard .370" iron or putter shaft (putter grips are not recommended as this would make the club non-conforming to the Rules of Golf). Assemble to putter length.Please note: without configuration (like added shaft grips etc.) this is only the clubhead!
