Brampton Grip Kit – Set for Changing Golf Grips (Basic, Complete, Premium)

Item number	Grip-Kit
Brand	Brampton
Category	Tapes and Glue

Everything you need to change golf grips yourself: HF-100 grip solvent, 15 grip tape strips and, depending on the version, tools.

Description

Brampton Grip Kit – Basic, Complete & Premium
Change your golf grips yourself – the right Brampton Grip Kit for hobby golfers, ambitious players and clubmakers.

With the **Brampton Grip Kits** you get the most important materials and tools for professionally installing new golf grips. Depending on the version you choose, the **Basic Grip Kit**, **Complete Grip Kit** or **Premium Grip Kit** is available.

All three versions contain the proven **Brampton HF-100® Grip Solvent** and **15 pre-cut double-sided grip tape strips**. Complete and Premium add helpful tools for more convenient grip installation.

Golf grips are not included.

The three Brampton Grip Kits at a glance

Version	HF-100®	Tape strips	Shaft clamp	Hook blade	Recommendation
Basic Grip Kit	118 ml / 4 oz	15	–	–	If you already have tools
Complete Grip Kit	118 ml / 4 oz	15	✓	–	Ideal for most hobby golfers

Version	HF-100®	Tape strips	Shaft clamp	Hook blade	Recommendation
Premium Grip Kit	118 ml / 4 oz	15	✓	✓	Complete solution for regripping

The contents correspond to Brampton Technology's current version split.

Brampton Basic Grip Kit

The **Brampton Basic Grip Kit** focuses on the consumables you need to install new golf grips.

Basic contents

- **1 × Brampton HF-100® Grip Solvent**
  - Contents: **118 ml / 4 oz**
- **15 × double-sided Brampton grip tape strips**
  - Size per strip: approx. **5.1 × 25.4 cm / 2 × 10 inches**
- **for up to 15 grip installations**
- Golf grips not included

Who do we recommend the Basic Kit for?

The Basic Grip Kit is particularly suitable for golfers who already have a **vice, a suitable shaft clamp and a tool for removing old grips**.

It is also a good choice as a consumables set for hobby clubmakers and golfers who regularly install their own golf grips.

Tesi Golf recommendation:
Choose Basic if you already have the necessary tools and mainly need tape and grip solvent.

Brampton Complete Grip Kit

The **Brampton Complete Grip Kit** extends the Basic Kit with a **rubber shaft clamp for the vice**.

This makes it much easier and safer to hold the golf club in place while installing the grip.

Complete contents

- **1 × Brampton HF-100® Grip Solvent**
  - Contents: **118 ml / 4 oz**
- **15 × double-sided Brampton grip tape strips**
  - approx. **5.1 × 25.4 cm / 2 × 10 inches**
- **1 × Rubber Shaft Clamp**
- **for up to 15 grip installations**

- Golf grips not included

Advantage of the shaft clamp

The rubber shaft clamp is used together with a vice and helps to hold the golf club securely while changing the grip.

It is a useful addition for both steel and graphite shafts.

Who do we recommend the Complete Kit for?

The Complete Kit is our recommendation for most golfers who want to change their own golf grips for the first time.

Essentially, all you need in addition is:

- a vice,
- a suitable knife for removing the old grip,
- and the new golf grips.

Tesi Golf recommendation:
The **Complete Grip Kit offers the best balance of equipment and requirements for most private users.**

Brampton Premium Grip Kit

The **Brampton Premium Grip Kit** is the most comprehensive of the three versions.

In addition to solvent, tape and shaft clamp, it contains a **hook blade for removing old golf grips**.

Premium contents

- **1 × Brampton HF-100® Grip Solvent**
  - Contents: **118 ml / 4 oz**
- **15 × double-sided Brampton grip tape strips**
  - approx. **5.1 × 25.4 cm / 2 × 10 inches**
- **1 × Rubber Shaft Clamp**
- **1 × Hook Knife**
- **for up to 15 grip installations**
- Golf grips not included

Who do we recommend the Premium Kit for?

The Premium Grip Kit is particularly suitable for:

- Golfers changing their own grips for the first time
- Players without existing tools

- Hobby clubmakers
- Smaller golf workshops
- Coaches and golf professionals
- Golfers who regularly test or change different grips

Tesi Golf recommendation:
If you want to start fully equipped, choose the **Premium Grip Kit**.

What is Brampton HF-100® Grip Solvent?

The **Brampton HF-100® Grip Solvent** was developed specifically for installing golf grips.

According to the manufacturer, HF-100 is:

- non-flammable
- non-toxic
- odour-neutral
- free of unpleasant fumes
- compatible with various grip tapes
- economical to use

Brampton states that just around **1 oz of HF-100 for installing a complete set of up to 14 clubs** can be enough. The included 4 oz therefore theoretically provides far more solvent than is needed for the 15 tape strips supplied.

How regripping works

1. Remove the old golf grip

Carefully cut the old grip off the shaft.

Especially with **graphite shafts** take care not to damage the surface of the shaft.

2. Remove the old tape

Remove old adhesive residue as completely as possible and clean the shaft.

3. Apply new grip tape

Stick a double-sided tape strip onto the shaft along the grip area.

4. Apply HF-100

Wet the grip tape completely with HF-100.

Also pour some solvent into the new golf grip and spread it over the inside.

5. Slide on the golf grip

Quickly slide the golf grip all the way onto the shaft.

6. Align the grip

Align the logo, grip markings or alignment aids while the grip can still be moved.

7. Let it dry

With correct use, Brampton states that the installed club can be ready to play after approximately **20 minutes**.

Which Brampton Grip Kit should I buy?

Basic Grip Kit

Recommendation:

You already have tools and a shaft clamp.

You get:

Solvent + 15 tape strips.

Complete Grip Kit

Recommendation:

You want to change golf grips yourself and have a vice, but no special shaft clamp yet.

You get:

Solvent + 15 tape strips + shaft clamp.

Our recommendation for most golfers.

Premium Grip Kit

Recommendation:

You want the most complete solution possible and also need a tool to remove the old golf grips.

You get:

Solvent + 15 tape strips + shaft clamp + hook blade.

Our recommendation for beginners and regular DIY regrippers.

Change golf grips yourself – or have them installed?

With a Brampton Grip Kit you can easily install your new golf grips yourself.

If you are unsure about regripping, grip size or correct installation, **Tesi Golf** will also help you choose and professionally install your golf grips.

The right grip size in particular can influence:

- grip feel
- comfort
- control

- hand position
- pressure distribution
- and confidence in the golf club

.

In addition to standard grips, Tesi Golf offers various grip sizes such as **Undersize, Standard, Midsize and Jumbo** as well as golf grips from various manufacturers.

Frequently asked questions about the Brampton Grip Kit

How many golf grips can I install with a Brampton Grip Kit?

Basic, Complete and Premium each contain **15 individual grip tape strips**. This lets you install up to **15 golf grips**.

Are golf grips included in the set?

No. The Brampton Grip Kit contains installation accessories. The golf grips you want are ordered separately.

What is the difference between Basic and Complete?

The **Basic Kit** contains HF-100 grip solvent and 15 tape strips.

The **Complete Kit** additionally contains a rubber shaft clamp for holding the golf club in the vice.

What is the difference between Complete and Premium?

The **Premium Kit** contains, in addition to the Complete Kit contents, a **hook knife for removing old golf grips**.

Can I use the grip kit for graphite shafts?

In principle, a golf grip can also be changed on graphite shafts. However, special care is needed when removing the old grip so that the graphite structure is not damaged by a knife.

Do I need a vice for the Complete or Premium Kit?

A suitable vice is required to use the supplied shaft clamp.

Can I use other grip tapes with HF-100?

Brampton describes HF-100 as compatible with various or all common grip tapes.

How quickly can I play again after regripping?

With correct use, Brampton states that the club can be ready to play after around **20 minutes**.

Conclusion

With the **Brampton Grip Kits Basic, Complete and Premium** you can match the equipment exactly to your needs.

Basic: for users with existing tools.

Complete: ideal for most golfers and DIY regrippers.

Premium: the most comprehensive solution with shaft clamp and hook blade.

This means Brampton offers the right equipment for your own regripping, from a simple consumables set to a comprehensive solution.
