Brampton Pre-Cut Grip Tape Strip 5 x 23 cm (9")

Item number	PIP-9 inch
Brand	Brampton
Manufacturer part no.	502-2X9-S
Category	Tapes and Glue

Pre-cut strip 5 x 23 cm – ready to use for regripping.

Description

Pre-cut grip tape strip 9" – ready to use

Single strip 5 cm wide, 23 cm (9") long, pre-cut.

Double-sided grip tape is the basis of every grip installation: it holds the golf grip securely on the shaft and is activated with a grip solvent such as Brampton HF-100 so that the grip slides on easily.

Features

- Pre-cut, 5 cm wide, 23 cm (9") long
- No measuring or cutting needed
- For grip solvents such as Brampton HF-100

How to apply the grip tape

1. Remove old tape and adhesive residue from the shaft.
2. Stick the tape lengthwise onto the shaft, about 1 cm beyond the butt end.
3. Push the overhang into the butt end and peel off the backing paper.
4. Apply grip solvent and slide on the grip.
