Item number	BRP04
Brand	Brampton
Manufacturer part no.	B214-QC4B
Category	Tapes and Glue

Fast shafting adhesive in a bottle pair, 60 ml each – ready to play after 20–30 minutes.

Description

Brampton Pro-Fix 15/30 Quick Cure epoxy: fast shafting adhesive for golf clubs

Contents: 2 bottles (resin and hardener), 60 ml (2 oz) each.

Pro-Fix 15/30 Quick Cure is the all-rounder among Brampton epoxies: it bonds shaft and clubhead with the impact strength of a 24-hour adhesive, yet is ready to play after just 20–30 minutes. Ideal when customers should get their club back the same day.

Features

- Two-component epoxy (resin and hardener), 1:1 mixing ratio by volume
- Working time approx. 5–8 minutes
- Ready to play after approx. 20–30 minutes at room temperature (longer in the cold)
- High impact strength on all shaft types
- Easy dispensing from bottle or cartridge

Use

Clean and abrade the shaft tip and hosel, mix A and B 1:1, apply and insert the shaft with a slight twisting motion. Wipe off excess adhesive immediately. For high swing speeds, add Brampton shafting beads.

Which size is right?

Cartridges with 25 ml or 50 ml are suitable for individual clubs, the bottle pairs with 60 ml, 120 ml or 236 ml per component for several sets of clubs.
