Description

Golf Pride MCC Classic Align Standard golf grip

The new Golf Pride MCC Classic Align still offers the proven features of all Multicompound grips. However, with a slightly softer compound. In addition, the shape has been improved as tested on tour.
The technology for better alignment:

once the grip is installed, the red ridge rises on the back of the grip (ribbed), giving you more confidence when gripping and aligning. This gives your hand better traction every time you grip. Of course, this also gives you more consistency: when the clubface meets the ball, it is much more likely to be square to the ball.
