Description

MCC Plus4 Align Max – the No. 1 hybrid golf grip with enlarged lower hand and maximum raised ALIGN MAX technology

The **MCC Plus4 Align Max** was developed for both hands and performs in every weather. The combination of brushed cotton cord in the upper section and high-performance rubber in the lower section ensures a reliable hold and a confident feel – with every shot.

The integrated **ALIGN MAX technology** takes Raised Ridge Technology to the maximum permitted height. The result: a longer, firmer and much more pronounced ridge for consistent hand positioning,

greater flexibility when gripping and a squarer clubface at address and impact.

Thanks to **Plus4 technology** the grip simulates four extra layers of grip tape in the lower section – for less grip tension, more control and maximum power.

Product benefits at a glance:

- Hybrid grip design for optimum control in any weather
- Raised ridge thanks to ALIGN MAX for precise hand placement
- Plus4 technology: less tension, more power
- Non-slip cotton cord at the top, tacky rubber at the bottom
- Ideal for all abilities and shot types
