Description

Golf Pride Tour SNSR Straight 104cc Putter Grip

The new putter grip from Golf Pride. The Tour SNSR features larger diameters combined with the advanced SNSR material, which delivers unmatched tour feel and feedback. The new grips are made from a new rubber compound tuned for softness, which gives a wonderful feel. This means less grip pressure and a better feel for your putter.

Players can choose the right size for their putting style and to match their characteristics, hand size and grip pressure when putting.

You can choose between the Tour SNSR Contour (tapered) and the Tour SNSR Straight.

The Straight version offers the modern, non-tapered option, giving you a similar grip feel in both hands.

All four Tour SNSR versions feature a wide thumb pad (paddle grip) to make guiding the putter as easy and comfortable as possible.

not to forget: the surface optimised for grip feel, which provides good grip conditions in any weather.

Each shape also comes in an oversize: 140 cc.

Diameter 104: 23 mm (measured across)
Diameter 140: 26 mm (measured across)
