Description

Golf Pride – Tour Velvet Plus4 – golf grip – NEW

State-of-the-art rubber compound combined with a computer-designed non-slip surface pattern for maximum playability, comfort and confidence.
With a larger lower hand for more power plus the moderate surface texture and all-weather performance of the Tour Velvet, the Tour Velvet Plus4 is the new standard in tackiness and performance.

Tour Velvet Plus4 golf grip – larger diameter in the lower hand simulates 4 extra layers of tape for lighter

grip pressure and more distance.

Features:

- Tour-inspired design

- **Moderate feedback**
The standard grip feel offers comfort and moderate feedback.

- **Larger diameter in the lower hand**
The larger outer diameter simulates the feel of building up the grip with four extra wraps of tape. This reduced taper encourages lighter grip pressure, less tension in the hands and more fluidity and power throughout the swing. – New material that is 8% softer than the current Tour Velvet.

- Moderate surface texture
Scientifically designed plus-sign texture that channels moisture away from the surface and provides consistent traction.

- Increased concentration of surface texture for more traction.

Weight: 49,5 g
Size: Standard
Core: 0.600in
Shape: Ribbed

The Tour Velvet is made from a perforated material that stays tacky even in the wet.
In addition, the Golf Pride **Tour Velvet Plus 4** has a 4.6% larger diameter in the lower section (compared to the regular Tour Velvet grip).
