Description

Pure Grips DTX Standard: the feel of a cord grip, seamless rubber

Size: Standard · Colour: Red

The Pure Grips DTX was developed together with golf instructor Hank Haney. It combines rougher and tackier zones to give the feel of a cord grip – but seamless and made of soft rubber. It suits almost every golfer looking for a direct connection to the club, including former cord players. The standard size suits most golfers with average hand size.

Features

- Combination of rough and tacky surface
- Cord-like feedback without hard threads
- Seamless rubber grip

- Tapeless installation with compressed air

Important installation note

Please do not use an organic-based grip solvent – it can damage the paint fill of Pure grips.

Pure Grips no longer available? Here is the alternative

Pure Grips are no longer produced. This item is a clearance item – while stocks last. As a successor we recommend the **Star Grips Sidewinder 360°**: its texture gives cord-like feedback like the DTX, seamless and tapeless.
