Description

Star Grips Sidewinder 360° Standard: textured golf grip for firm control

Size: Standard · Colour: Red

The Star Sidewinder 360° is a textured golf grip for players who prefer firm control. The symmetrical "S" texture pattern improves traction in the direction of the swing – similar to a cord grip, but much more comfortable in the hands. It is also extremely durable. The standard size suits most golfers with average hand size.

Features

- Symmetrical S texture pattern for directional traction
- Firm, direct feedback
- 360° design without logo or alignment marks – ideal for adjustable drivers and woods
- Very durable rubber compound

Tapeless installation – ready to play at once

Star Grips have a particularly high rubber content and are therefore very elastic. With the Star Grip Installation Gun they are installed with compressed air in seconds – no grip tape, no solvent and no drying time. Classic installation with grip tape and solvent is of course also possible.

Alternative to Pure Grips

Have you played Pure Grips until now? Star Grips are the obvious alternative: also seamless, with a high rubber content and tapeless installation.
