Core Size	0.600 in
Grip Shape	Round

Description

Star Grips Tour Star+ 360 Oversize: less taper for quiet hands

Size: Oversize · Colour: Blue

The Tour Star+ is a version of the Classic Wrap with less taper. The lower part of the grip is thicker – about 3 to 4 extra wraps of grip tape. This reduces grip pressure in the lower hand, relaxes the wrists and promotes a smoother swing. The extra thickness also dampens vibration and relieves hands and elbows. The oversize version is much thicker – ideal for large hands or golfers with joint problems.

Features

- Reduced taper (like 3–4 extra wraps of tape)

- Less grip pressure, more relaxed wrists
- Strong vibration damping – comfortable for golfers with joint problems
- Soft, tacky rubber compound, 360° design without logo

Tapeless installation – ready to play at once

Star Grips have a particularly high rubber content and are therefore very elastic. With the Star Grip Installation Gun they are installed with compressed air in seconds – no grip tape, no solvent and no drying time. Classic installation with grip tape and solvent is of course also possible.

Alternative to Pure Grips

Have you played Pure Grips until now? Star Grips are the obvious alternative: also seamless, with a high rubber content and tapeless installation.
