Description

SuperStroke Crossline 2.0: the successor to the Lamkin Crossline

The Crossline 2.0 is the next generation of a true classic. It keeps the timeless look and proven Crossline pattern of the Lamkin Crossline and is now made from SuperStroke's durable Genesis compound, which stays equally grippy in cold, heat and wet. The Modern Taper profile is thicker in the lower-hand area, about four extra wraps of tape. This promotes even grip pressure.

Features

- Original Crossline pattern for a secure hold
- Durable Genesis compound, all-weather
- Modern Taper for even grip pressure
- Good torsion control
- In standard, midsize and jumbo

Looking for the Lamkin Crossline?

Lamkin now belongs to SuperStroke. The SuperStroke Crossline 2.0 is the direct successor to the legendary Lamkin Crossline: the same iconic pattern, now made from the durable Genesis compound and with a modern taper profile. If you have played the Lamkin Crossline, this is your replacement – in standard, midsize and jumbo.
