SuperStroke Zenergy Pistol GT Putter Grip

Item number	STPZ-Pistol
Brand	SuperStroke
Category	Putter Grips

Pistol-shaped putter grip with No Taper Technology and SPYNE ridge for a repeatable hand position.

Description

SuperStroke Zenergy Pistol GT: pistol shape for a stable lead hand

The pistol shape gives the lead hand a firm, familiar position. At the same time, No Taper Technology creates an almost parallel profile, so both hands work with even pressure. Ideal for golfers looking for a clearly defined hand position and plenty of control.

Features

- Pistol profile for a stable lead hand
- No Taper Technology: the same thickness from top to bottom for even grip pressure
- Enhanced SPYNE: a ridge on the underside for a repeatable hand position
- Multi-zone texture for feedback and hold

Note

The CounterCore counterweight is not included. SuperStroke backweights are available separately.
