ust Mamiya Recoil Dart iron 65/75 graphite shaft

Item number	USTRCDA6575
Brand	UST-Mamiya
Category	GOLF SHAFTS

UST Mamiya Recoil Dart Eisen 65/75 Graphitschaft – hochwertiges Golfzubehör von Tesi Golf.

Specifications

Ball Flight	Mid
Torque	5.2 d, 3.9 d
DSFI Range	80-95 mph
Material	Graphite
Weight	70 g, 64 g
Shaft Type	Iron
Flex	R-Regular
Tip Diameter	0.370 in
Raw Length	41 in
Parallel Tip	5.5 in

Description

UST Mamiya Recoil Dart Irons 65/75 Graphite Shaft

Recoil dart irons are designed to give all golfers more consistency, optimum FEEL and PRECISE ball flight.

Recoil dart has been developed after years of research, testing and development to optimize the stiffness of the shaft in the critical areas of the golf shaft. To achieve maximum distance, optimum hoop stiffness has been developed in the energy transfer area of the shaft. In the toe area, the hoop stiffness is increased to maintain feel while stabilizing the toe area for maximum consistency and optimal ball flight.

dart- Dual Action Recoil Technology eliminates inconsistent areas in the golf shaft

Recoil technology provides more consistency, distance and trajectory control

- Recoil technology ensures an optimal spring effect in the shaft walls and a more efficient transfer of energy to the ball for more speed and greater distance.

Ion Plating (IP) provides a stunning and high quality finish compared to conventional paint

- The raw shaft is placed in a vacuum chamber where metal ions are released and bond with the shaft.
- This process takes longer and is more expensive than conventional methods.

Recoil is more than a reaction. It is a revolution.
